About the Permissions

flock safety

User Management	Allows you to add and delete users
Network	List networks that are available for the role
Search	Grants permission to access the Flock search portal
Camera Details	Access to the camera page where you can add/delete camera networks and audit existing networks your organization has access to.
Installation Tools	Allows access to the Installation tools used by agencies that are performing self-installing or who move cameras
Camera Management	Allows access to change camera name and location
National Lookup	Allows access to State or National Lookup
Managed Saved Searches	Allows access to Saved Searches (Hot List based on vehicle description)
Hot List Tool Access	Allows access to receive state Hot List alerts, saved search alerts, and custom Hot List alerts
Custom Hot List Admin	Grants access to Custom Hot List organization wide view. Ability to see / edit all users' created Hot Lists
Custom Hot List Access	Grants access to Custom Hot List individual view. Ability to create a list and add vehicles to it but not see anyone else's list
Insights	Grants access to suppressed hits
Visual Search	Ability to upload an image, and machine learning will match it to other vehicles recorded by Flock cameras in the past 30 days
Convoy Search	Ability to use a vehicle tag to identify other vehicles that commonly travel within close proximity of it
Multi-Geography Search	Ability to check multiple locations and times to identify a vehicle that was common to all selections
